# Plan Overview

## VISION STATEMENT

The Plan envisions a series of new urban neighborhoods containing a mix of uses; open spaces; a diversity of housing opportunities; and integrated transit, in a manner that will be compatible with the adjacent neighborhoods.

The Plan also seeks to ensure that the seven distinct neighborhoods are economically and environmentally sustainable for the City.

## Update on **Revised** Housing Proposal

- More units
- Earlier acquisition
- Deeper subsidies to reach lower incomes
- Longer affordability
- Tenant Survey
- Distribution of affordable units
- Funding increased by \$32.7 million

**Why the Plan is important for affordable housing**

## Revised Housing Proposal: More Committed Units

Target has increased to **800** committed affordable units

800 = 32% of units demolished  
= 20% of net new units

Buy down will include units in existing buildings and new units when available

Existing units will cost less and will be available sooner

Southern Towers Berkeley Building (46);  
Seminary Towers (55); Lynbrook (44-  
prior to donation)

## Revised Housing Proposal: More Committed Units

### Other options to increase target and expand affordability

- Potential for affordable senior housing at Goodwin House and/or at The Hermitage as those properties look to increase their facilities and services
- Senior housing above the fire station to be studied
- Building sites in Plan area maybe acquired by nonprofits
- Committed units will accept Housing Choice/Section 8 vouchers

## Revised Housing Proposal: Earlier acquisition

Some committed units will be available in 2014 prior to the first phase of demolition

Interim tenant assistance will be available to all residents in good standing:

- Notice and regular communication
- Second survey to update information
- Coordinated relocation options (to comparably priced units in the Plan area and throughout the City)
- Payments to help with moving costs

## Revised Housing Proposal: Deeper subsidies

Proposed range is now 40% – 75% AMI

Targeting lower incomes to serve households with fewest options

Funding to subsidize units will come from:

- *Savings achieved by acquiring existing units*
- *\$52.4 million increment of future City real estate tax revenue from Beauregard redevelopment*
- *Third party leverage to be identified*

## Revised Housing Proposal: Longer Affordability

The 30 year affordability period may be increased through:

Nonprofit or ARHA ownership of some units and/or building sites (affordable "in perpetuity") to be negotiated

Option to negotiate extension of affordability for an additional 10 year period beyond 30 years

## Tenant Survey

Spring 2012: In consultation with Tenant and Workers United, City and Developers will sponsor a survey of rental households impacted by demolition and redevelopment

Survey will ask about:

- Household size and composition
- Age
- Household income and place of work
- Other demographic information to support planning for housing needs

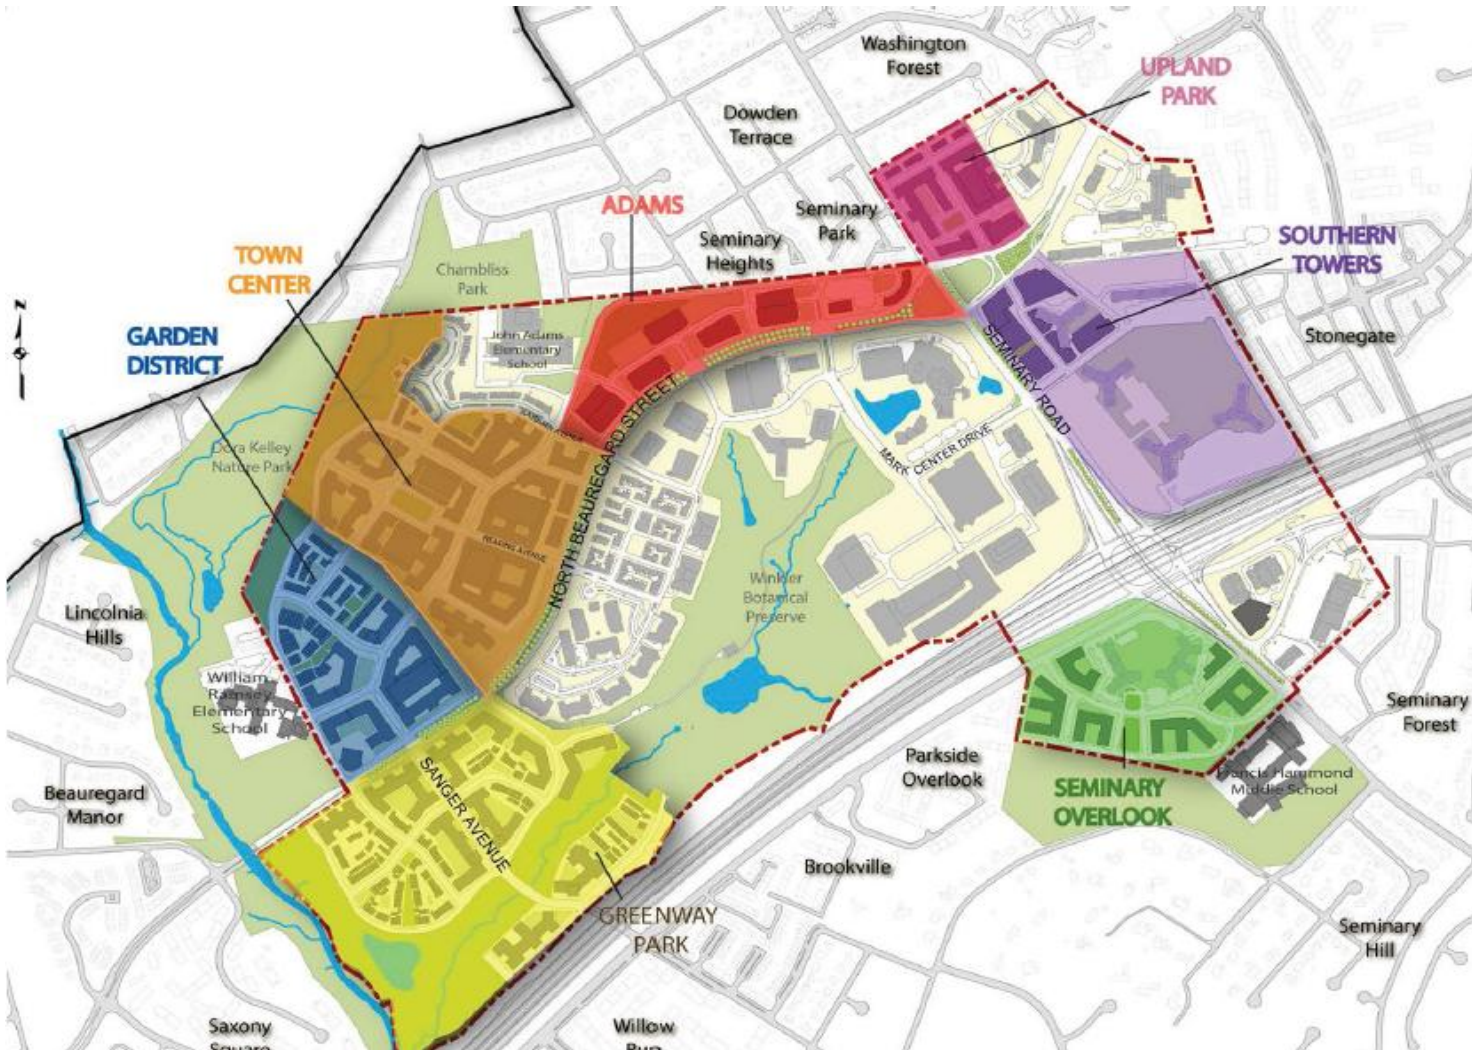

Goal is to interview at least 1,250 households

Fall 2012: Survey data will be used to refine planning for affordable housing needs during rezoning and DSUP processes

## Location of Committed Affordable Housing To Be Dispersed Among All Residential Neighborhoods

## Improved Funding

Developers' cash share	\$49.7 Million
Public amenities fund	
Voluntary affordable housing contribution	
Mortgage value of Hillwood and Lynbrook donations	\$8.0 Million
City Beauregard Redevelopment Tax Increment Share	\$52.4 Million
City Housing Trust Fund/Other	<u>\$4.0 Million</u>
TOTAL	\$114.1 Million

*The City will actively seek third party financial resources to supplement the funds already pledged by the developers and the City to enhance and increase affordable housing options in Beauregard.*

## Why the Plan is important to affordable housing

Replaces at risk market affordable/workforce housing with committed affordable/workforce housing (32% of units to be demolished will be replaced)

Ensures some committed housing will be affordable to very low income households, enabling area's economic diversity

Expands affordability through Housing Choice Vouchers

Creates a true mixed income community

Provides a coordinated approach to producing and preserving long term committed affordable/workforce housing in an area that is particularly pressured by nearby regional redevelopment

Preserves affordability that is at risk due to market pressures (increasing rents), redevelopment (Lynbrook townhomes DSUP), and renovation (The Encore)

Commits significant developer and City resources (\$114.1 M+) to affordable housing
